# eRA Commons Version 3.20

## Release Notes

### New Features

#### ***Research Performance Progress Report (RPPR) Changes for VA***

##### **Added Ability for VA Grantees to Submit RPPRs**

Department of Veteran Affairs (VA) grantees have been given the ability to use the RPPR module for submitting progress reports for Research Career Development Awards (Ks).

VA users also have the ability to submit Progress Report Additional Materials (PRAM) via the RPPR module. The PRAM feature allows VA grantees to electronically enter, review, and submit information in response to specific request(s) from the VA for additional materials following the submission of an RPPR.

### Fixes

#### ***Corrected RPPR PDF Display for Question F.2 for Multi-component Grants***

Previously, the RPPR PDF was not displaying any answer for question F.2 when the option *Nothing to Report* had been chosen. This error occurred for multi-component applications only. When *Nothing to Report* is selected as a response to question F. 2 of any component, the PDF should also display *Nothing to Report* for that section.

Prior to this fix, answers meeting this criteria displayed blank.

This issue has been resolved.
