How eRA Assembles Multi-project Applications

Introduction

Applicants put a lot of effort into preparing their applications. It is no surprise that some applicants experience a considerable amount of angst over allowing a computer to control how their application will be presented to agency staff for review and funding consideration. Although automated application assembly removes the ability for applicants to attempt to set their applications apart from a presentation perspective, the efficiency and consistency of electronic processes help to ensure all applications adhere to the same guidelines and that the proposed research contained in the applications is the true differentiator. This document provides a detailed description of how multi-project applications are systematically assembled.

Multi-project Application Image Assembly Order

Multi-project application images are automatically assembled in the following pre-defined order:

- The Overall component SF4242 (R&R) form
- Table of Contents
- Data summaries
 - Component Summary
 - Performance Sites Summary
 - Human Subjects – Clinical Trials – Vertebrate Animals – HESC Summary
 - Human Embryonic Stem Cell Lines Summary (when applicable)
 - Composite Application Budget Summary
 - Component Budget Summary
 - Categories Budget Summary
 - Program Income Summary (when applicable)
 - Senior/Key personal Summary followed by biosketches
- Remaining Overall component information
- Additional components
 - Additional component types are presented in alphabetical order (e.g. Cores before Projects).
 - Components of the same type (e.g., Project-001, Project-002) are grouped together and presented in the order designated in ASSIST. If the application was submitted using a system-to-system solution other than ASSIST, then the components are presented in the order they were submitted to Grants.gov.

The Cover Letter (included in Overall SF424 R&R cover form of application) and Appendix attachments (included with PHS 398 Research Plan forms in each component), as well as, the entire PHS Assignment Request Form are not part of the assembled application image. Applicants can find these documents in the Other Relevant Documents section of the eRA Commons detailed status screen where the assembled e-Application image is also stored. Although NIH staff and peer reviewers can access the assembled e-Application image and appropriate appendices in the applications grant folder, only limited staff have access to Cover Letter and PHS Assignment Request Form information.

How eRA Assembles Multi-project Applications

Application Table of Contents, Headers and Footers

The system automatically generates bookmarks, creates a detailed Table of Contents, inserts document headers (including Contact PD/PI name), and inserts document footers (including page numbers) into the assembled application image. The bookmarking and Table of Contents facilitate easy application navigation on-line and in print.

Bookmarks

Bookmarks are an on-line tool that provide application readers with easy access to critical aspects of the application.

Table of Contents

The Table of Contents provides a more detailed listing of sections of the application and the page number for each. The Table of Contents is particularly helpful when the application is printed.

Page Headers

Throughout the application the contact PD/PI for the entire application is included in the header. Note that the contact PD/PI may not be the lead designated for a particular component. The header also includes the name of the component to help readers quickly identify where they are in the application.

Expanding Components

Components of the same type are grouped together (e.g., all components of type 'Project' will be grouped under a 'Project' bookmark. Clicking on the bookmark for the component type expands to show all components of that type.

<ul style="list-style-type: none"> SF424 (R&R) Cover Page Table of Contents [+] Summaries Biosketches [+] Overall [+] Admin-Core <ul style="list-style-type: none"> [+] Admin-Core-001 (031) [+] Core <ul style="list-style-type: none"> [+] Core-001 (485) [+] Core-002 (828) [+] Project <ul style="list-style-type: none"> [+] Project-001 (847) [+] Project-002 (687) [+] Project-003 (027)

How eRA Assembles Multi-project Applications

Clicking on the bookmark for the unique component identifier will expand to show the data provided for that that individual component. The data for each component is displayed in a way consistent with a typical single-project application. However, since many of the SF424 R&R cover fields only apply for the Overall component, only a few fields of that form are displayed for other components.

How eRA Assembles Multi-project Applications

Component Summary

The system assigns each component a unique identifier based on the component type and a sequential number. In response to user requests, the identifier used within ASSIST is listed in parenthesis. Examples: Core-001 (485), Project-001 (847), Project-002 (687).

The Component Summary serves as a key for readers to match the component identifier assigned during application image assembly to the Component Project Title and PD/PI or Project Lead. It also provides a quick reference to determine which organization is leading each component.

Project-002 (969)	Better Now	0037
Project-002 (969)	Better Now	0038
Project-003 (330)	Cures R Us	0033
Project-003 (330)	Cures R Us	0034

How eRA Assembles Multi-project Applications

Composite Application Budget Summary

The Overall component of a multi-project application does not typically contain a dedicated budget form. The only budget information included in the Overall component is the Estimated Project Funding section of the SF424 (R&R) Cover form. The budget details are included in the components themselves.

The Composite Application Budget Summary is compiled based on component budget data. Data collected on all budget forms with the same DUNS number as the applicant organization are summarized as the applicant budget. Budget data collected on forms with different DUNS numbers than the applicant organization are included under Consortium Costs.

Composite Application Budget Summary						
Categories	Budget Period 1	Budget Period 2	Budget Period 3	Budget Period 4	Budget Period 5	TOTALS
Salary, Wages and Fringe Benefits	414,313	414,313	414,313	414,313	414,313	2,071,565
Equipment	58,000	6,000	6,000	6,000	6,000	82,000
Travel	5,000	5,000	5,000	5,000	5,000	25,000
Participant/Trainee Support Costs	0	0	0	0	0	0
Other Direct Costs (excluding Consortium)	87,500	87,500	87,500	87,500	87,500	437,500
Consortium Costs	1,580,755	1,360,755	1,360,755	1,360,755	1,360,755	7,023,775
Direct Costs	2,145,568	1,873,568	1,873,568	1,873,568	1,873,568	9,639,840
Indirect Costs	275,000	275,000	275,000	275,000	275,000	1,375,000
Total Direct and Indirect Costs	2,420,568	2,148,568	2,148,568	2,148,568	2,148,568	11,014,840

Total Direct Costs less Consortium F&A						
Category	Budget Period 1	Budget Period 2	Budget Period 3	Budget Period 4	Budget Period 5	TOTALS
Total Direct Costs less Consortium F&A	1,665,568	1,393,568	1,393,568	1,393,568	1,393,568	7,239,840

NIH policy (NOT-OD-05-004) allows applicants to exclude consortium/contractual F&A costs when determining if an application falls at or beneath any applicable direct cost limit. When a direct cost limit is specified in an FOA, the following table can be used to determine if your application falls within that limit.

How the Composite Application Budget Summary is calculated:

The summary provides the following information for each budget period based on budget data collected within the components. The DUNS included on each budget form is used to determine if the budget information is for the Applicant Organization (DUNS matches the DUNS provided on the SF424 RR Cover of the Overall component) or for a collaborating organization (DUNS does not match the DUNS provided on the SF424 RR Cover of the Overall component).

- **Salary, Wages and Fringe Benefits** = Sum of the 'Total Salary, Wages and Benefits (A+B)' line item for all component budgets from Applicant Organization
- **Equipment** = Sum of the 'Total Equipment' line item for all component budgets from Applicant Organization
- **Travel** = Sum of the 'Total Travel Cost' line item for all component budgets from Applicant Organization
- **Participant/Trainee Support Costs** = Sum of the 'Total Participant/Trainee Support Costs' line item for all component budgets from Applicant Organization
- **Other Direct Costs (excluding Consortium)** = Sum of the 'Total Other Direct Costs' line item for all component budgets from Applicant Organization; minus the 'F5. Subawards/Consortium/Contractual Costs' line item contained in the same budgets

How eRA Assembles Multi-project Applications

- **Consortium** = Sum of the 'F5. Subawards/Consortium/Contractual Costs' line item for all component budgets from Applicant Organization; plus the sum of the 'Total Direct and Indirect Institutional Costs (G + H)' line item for all other component budgets
- **Direct Costs** = Sum of the 'Total Direct Costs' line item (G) for all Project budgets from the Applicant Organization; plus the sum of the 'Total Direct and Indirect Institutional Costs (G + H)' line item for all Project budgets from collaborating organizations; minus the indirect Costs for Subaward budget forms for the Applicant Organization

Note: This calculation should not be used for the purposes of determining if an application falls within any direct cost limit designated in a Funding Opportunity Announcement, since it includes all direct costs including consortium/contractual F&A costs.

- **Indirect Costs** = Sum of the 'Total Indirect Costs' line item for all component budgets from the Applicant Organization plus the 'Total Indirect Costs' from the PHS Additional Indirect Costs form.

Note: Applications with at least one component led by an organization other than the applicant organization may include the following message:

*This application includes at least one component led by an organization that has a DUNS different than the Applicant Organization. The indirect cost calculation for the applicant organization may not include all allowed Indirect Costs for the first \$25K of requested consortium costs and, therefore, may appear less than expected. No action is required from the applicant; NIH will make any appropriate corrections to the budget calculations administratively. The application review will not be affected.

- **Total Direct and Indirect Costs** = Sum of the 'Total Indirect Costs' line item for all component budgets from Applicant Organization

Total Direct Costs Less Consortium F&A Table

NIH continues to support the policy established in 2004 regarding applications that involve consortium/contractual F&A costs (see [NOT-OD-05-004](#)). This policy allows applicants to exclude consortium/contractual F&A costs when determining if an application falls at or beneath any applicable direct cost limit.

To determine if an application falls at or beneath a direct cost limit, the following calculation must be done for each budget period:

- Take the Direct Cost amount from the Composite Application Budget Summary and subtract the Indirect Costs from the Project budget of any component not led by the applicant organization. Then subtract the Indirect Costs from all Subaward budget forms associated with components led by the applicant organization.

This cumbersome calculation is done by the system and presented in the table. The table appears in all multi-project application images even when in response to FOAs without direct cost limits.

How eRA Assembles Multi-project Applications

Component Budget Summary

In the Component Budget Summary, all major budget categories defined on the budget forms are summarized for each component.

Component Budget Summary							
Components	Categories	Budget Period 1	Budget Period 2	Budget Period 3	Budget Period 4	Budget Period 5	TOTALS
Overall	Indirect Costs	25,000	25,000	25,000	25,000	25,000	125,000
TOTALS	Total Direct and Indirect Costs	25,000	25,000	25,000	25,000	25,000	125,000
Admin-Core-001 (134)	Salary, Wages and Fringe Benefits	91,000	91,000	91,000	91,000	91,000	455,000
	Equipment	6,000	6,000	6,000	6,000	6,000	30,000
	Travel	1,000	1,000	1,000	1,000	1,000	5,000
	Participant/Trainee Support Costs	0	0	0	0	0	0
	Other Direct Costs (excluding Consortium)	56,500	56,500	56,500	56,500	56,500	282,500
	Consortium Costs	0	0	0	0	0	0
	Direct Costs	154,500	154,500	154,500	154,500	154,500	772,500
	Indirect Costs	75,000	75,000	75,000	75,000	75,000	375,000
TOTALS	Total Direct and Indirect Costs	229,500	229,500	229,500	229,500	229,500	1,147,500
Core-001 (113)	Salary, Wages and Fringe Benefits	171,333	171,333	171,333	171,333	171,333	856,665
	Equipment	0	0	0	0	0	0

How eRA Assembles Multi-project Applications

Program Income Summary

The Program Income Summary provides a total of all Program Income across all budget periods for each component for which program income data is provided. Each unique source is listed (one per line). You can see the detailed information collected on the PHS 398 Cover Page Supplement within each component.

Program Income Summary		
Component	Source	Total Amount
Core-001 (113)	User Service Fee	73,000
	User Service Fees	
	Diagnostic Kits	
Core-002 (344)	Registration Fees	45,000

Senior/Key Personnel Summary

The Senior/Key Personnel Summary lists the Contact PD/PI and any other multi-PD/PIs for the entire application as specified on the Overall component followed by an alphabetical listing of all other personnel named in the application. Personnel that participate in multiple components will have multiple rows in the summary each listing the component and their role within that component.

Senior/Key Personnel Summary			
Name	Organization	Role on Project	Components
Money, Cher D	Whatsamatta U	PD/PI(Contact)	Overall
Round, Ben A	Whatsamatta U	PD/PI(MPI)	Overall
Dish, Pete Ree	Whatsamatta U	Faculty	Project-001 (847)
Doer, Ima	Cures R Us	Other: Project Lead	Project-003 (027)
Dote, Ann T	Cures R Us	Post Doctoral Scholar	Project-003 (027)
Knight, Jed I	Whatsamatta U	Other: Project Lead	Admin-Core-001 (031)
Kur, Bea	Better Now	Faculty	Project-002 (687)
Lead, Abel Tu	Better Now	Other: Project Lead	Core-002 (828)
Lead, Abel Tu	Better Now	Faculty	Project-002 (687)
Money, Cher D	Whatsamatta U	Other: Project Lead	Project-001 (847)
Round, Ben A	Whatsamatta U	Other: Project Lead	Core-001 (485)
Sential, Quin T	Better Now	Other: Project Lead	Project-002 (687)
Sumthin, Tellum	Better Now	Faculty	Core-002 (828)

How eRA Assembles Multi-project Applications

Biosketches

Biosketches for the personnel are listed in the same order as they appear in the Senior/Key Personnel Summary. NIH only allows a single biosketch for each senior/key person listed within the application. Consequently, even if a person is shown in multiple rows on the Senior/Key Personnel Summary only one biosketch will appear. Biosketches are not repeated within the individual component sections of the application image.

Contact PD/PI: Money, Cher D

OMB No. 0925-0001/0002 (Rev. 08/12 Approved Through 8/31/2015)

BIOGRAPHICAL SKETCH
Provide the following information for the Senior/key personnel and other significant contributors.
Follow this format for each person. DO NOT EXCEED FIVE PAGES.

NAME: Money, Cher D

eRA COMMONS USER NAME (credential, e.g., agency login): CherDMoney

POSITION TITLE: Associate Professor of Psychology

EDUCATION/TRAINING *(Begin with baccalaureate or other initial professional education, such as nursing, include postdoctoral training and residency training if applicable. Add/delete rows as necessary.)*
